When The Day Is Done

and you turn in to a comfortable home, think of the boys in the weary "watch on the Rhine."

They are depending on you, too. They want to come home as much as you want them here, but they offered their lives that they might make peace on earth, and they'll stay on the job till that peace is sure.

It's up to you to see that they have the things they need—that winter's cold is counteracted by appropriate clothing, that food is plentiful, and that they are cared for.

Your government does this, but you are part of the government, and unless you furnish the government, it cannot furnish them.
